- Eucalyptus core
- Exterior joinery
- Site hoarding
- Bond Class 3 EN314-2
- EN 636-2
- Service class: 1, 2 & 3

Our premium panel from China, worthy of the name "Rí" which originates from the Celtic group of languages, meaning "King" or "Royal".

Rí is a hardwood throughout plywood with Eucalyptus core, widely considered to be of similar quality to Malaysian or "Far Eastern" plywood.

Examples of use include hoarding and exterior joinery.

Suitable for structural use in dry, humid and exterior conditions (In exterior conditions protect as recommended by TRADA).
